OUR DATA PROCESS

LWS has developed systems, processes, and methods of managing data through the "Full Data Lifecycle" for over 45,000 miles of cross-country corridor projects. The Full Data Lifecycle ties all of our processes together from cradle to grave.

This process ensures data integrity and consistency from the beginning of a project to the end. LWS utilizes numerous automated systems which offers distinct advantages to our clients. Our goal is to save our clients time and money.
